At noon the House adjourned till 10 a.m. Monday.

SIXTY-SEVENTH DAY.

MONDAY, July 29, 1884.

The House met at 10 a.m. Minutes of the preceding day read and approved.

#### REPORTS OF COMMITTEES.

Mr. Godfrey Brown, from the Finance Committee, reported on a number of items on the Appropriation Bill, recommending that the items for Superintendent of Public Works \$6,000 and Civil Engineer \$8,000 be included in the sum of \$7,000, with a clerk at a salary of \$900 per annum.

The report was laid on the table for consideration with the bill.

#### RESOLUTIONS.

Mr. Kaulukou moved that the consideration of the Appropriation bill be made the special order for each day until it shall be completed.

Mr. Hitchcock moved to limit to two hours each day. Carried.

Mr. Kaunamano read for the first time a bill to grant to Chong Lung a license to sell opium in Honolulu. Ordered to a second reading.

The House resolved itself in Committee of the Whole for the consideration of the Appropriation Bill, Dr. J. Mott Smith in the Chair.

The Minister of the Interior submitted the following new items: To refund first year's rent of the Spreckel's lease of water right at Hamakua, just cancelled by order of the Legislature, \$500; for roads and bridges the unexpended balance of the road tax, \$34,000. The former item was agreed to, and the latter postponed temporarily, in order that the Minister of the Interior might give exact figures (\$34,307.09.)

In accordance with the report of the Finance Committee, the following items were taken up: Civil Engineer, \$7,000; clerk for the same, \$1,800.

Mr. Gulick moved to increase the amount from \$7,000 to \$8,000, and to strike out the item for clerk.

Mr. Dole said a clerk was necessary, as the chief officers would not have time to attend to the details.

Mr. Wilder said he was opposed to the clerkship, but he would be willing to vote a salary for an assistant superintendent. He failed to see the necessity for a high-priced official during the next two years, as there were going to be no important public works constructed, and in the matter of constructing bridges there would be no more ability required than that of a first-class carpenter. A \$1000 a month salaried man was not now required. He was in favor of paying the chief officer \$6000 for the two years, and \$1800 for an assistant's annual salary. This officer, if competent, could visit the other islands, and make reports to his chief.

The item of \$7000 was then passed as recommended.

On motion of Mr. Gulick, an item of \$1125 for balance of salary of the Chief Engineer until August next, was inserted.

Mr. Gulick moved to strike out the item of \$800 per annum for salary of a clerk to the engineer.

Mr. W. O. Smith moved to substitute for that item the sum of \$3600 for an assistant superintendent and engineer. He argued that such an officer, if competent, would prove economical to the Government, and of great assistance to his chief. He said a clerk at \$900 a year would be idle a great part of the year, while a competent assistant at \$1800 a year could be constantly kept in employment.

Mr. Gulick said there was substantially nothing much for an assistant superintendent and engineer to do now.

Mr. Isenberg favored the motion for an assistant. He did not see how one man could perform the work that it had taken three to do. He was opposed to the clerkship. There were plenty of idle clerks hanging around the Interior Department, watching the proceedings of the Assembly. He argued that an assistant engineer would be of service to the District Road Superintendents.

Mr. Dole said that the attendance of the clerk was not equal to the watchful attendance of the Chief Engineer during the entire session.

Mr. Widemann said the Superintendent of Public Works, who had held the position for ten years, was an old friend of his, who had never been burdened with labor—in fact, what he should have done was done by others, at an increased expense. Having to be absent from the country for a short time, another person was employed until his return, when the office of Civil Engineer was created for that person, and has since been in existence. There was no necessity for the services of more than one person to attend to all the civil engineering work of the country.

Mr. Isenberg said the Island of Hawaii had had the services of a civil engineer, without expense to the Government, and the roads were in excellent condition. He thought an Assistant Engineer's services were needed to guide in the construction of wharves, etc.

Mr. W. O. Smith alluded to Mr. Widemann's statement that a Civil Engineer was not needed on the Island of Hawaii, and said there was a \$14,000 bridge on that island which was unsafe for travel. Had a civil engineer superintended its construction, it would have been different.

At 12:30 p.m. the House took a recess till 2 p.m.

Mr. Bishop, speaking on the item of "for salary of Clerk to Superintendent of Public Works," said there were sufficient clerks at present in the Interior Department to do all the clerical work that was required. He favored the appointment of an Assistant Superintendent of Public Works, on a salary of \$1,800 a year.

Motion to strike out the item was carried.

#### ROADS AND BRIDGES.

Honolulu.....\$40,000  
Mr. Kaulukou moved to insert in item of \$3,000 for extension of Queen street to Puukolo. Carried.

Mr. Kaulukou moved to insert \$7,000 for the extension of Hotel street through Kiki-hale to the river.

Mr. Cecil Brown supported the motion, but he did not consider the amount was sufficient.

The matter was finally referred to the Minister of the Interior.

A motion that the Committee rise was lost.

President Rhodes rose to a point of order. He stated that the Committee had sat for two hours, and by a resolution passed during the forenoon, it must necessarily rise.

Committee rose and reported progress. Third reading of a bill to facilitate the acquiring and holding of homesteads.

A few amendments were made and the bill re-committed to the Revision Committee. Ordered to be read a third time on Saturday next.

Third reading of a bill to amend Section 4, Chapter 2 of the Penal Code, relating to the establishment of hospitals.

Mr. Isenberg moved it be indefinitely postponed. He considered the country was too poor to incur such expenses as the passage of this bill would cause.

Mr. Kaulukou moved the bill pass. Carried, and bill passed.

Second reading of a bill to provide for the appointment of Deputy Clerk and Second Deputy Clerk of the Supreme Court and to prescribe the powers and duties of said Clerks.

Mr. Cecil Brown moved the bill pass to engrossment. Carried, and bill ordered to be read a third time on Saturday next.

Second reading of a bill to amend Sections 56 and 59 of the Civil Code, relating to licenses.

Referred to Judiciary Committee At 4:45 House adjourned.
